

NOESISGRID - Investor / Client Brief

NOESISGRID is decision infrastructure under uncertainty.

It is not a chatbot, not a dashboard, and not only an LLM.

It combines evidence retrieval, reasoning, verifier logic, human-in-the-loop and audit logs.

Core value:

- Reduce time to a defensible decision.
- Improve evidence traceability.
- Make uncertainty visible.
- Create an auditable decision record.

Analysis tiers:

- Quick Answer: GPT-4.1-mini.
- Strategic Analysis: GPT-4.1 + CRITERIUM.
- Deep Review: GPT-5.5 + CRITERIUM.

Use cases:

- Strategic risk assessment.
- Investment or market-entry screening.
- Country and travel risk review.
- Operational incident intelligence.
- Executive decision briefs.
